PRIVACY ACT STATEMENT			
AUTHORITY: E.O. 9397. PRINCIPAL PURPOSE(S): To collect personal identifiers during the certification registration process, to ensure positive identification of the person who signs this form. ROUTINE USES: Information is used in the DOD PKI certificate registration process. DISCLOSURE: Voluntary; however, failure to provide the information may result in denial of issuance of a token containing PKI private keys. You have been authorized to receive one or more DoD PKI certificates bearing the above stated Certificate Common Name for the purpose indicated by the above stated Certificate Type. The certificates and private keys are either issued on a token (e.g., smart card or other hardware token), or the certificates are directly downloaded to the Device or Application that generated the public and private key pairs. All certificates and associated key pairs are government property and may be used only for the official purposes for which they are intended. Acknowledgment of Responsibilities: I acknowledge receiving the identified set of DoD PKI certificates and private keys and will comply with the applicable CPS/RPS and the following obligations: - I will use the certificates and private keys only for the official purposes for which they are intended; - I will ensure the private keys are protected at all times; - I will comply with the instructions per CPS/RPS for selecting a Personal Identification Number (PIN) or other required method for controlling access to the tokens containing private keys, and I will not disclose same to unauthorized personnel, leave it where it might be observed, nor write it on the token itself; - I will ensure that only authorized personnel can access the password and private keys for all certificates issued pursuant to this acknowledgement; - I understand that if I receive key management (encryption/decryption) key pairs on a token, copies of the private decryption keys have also been provided to the key recovery database for recovery purposes; - I will immediately report any compromise (e.g., loss, suspected or known unauthorized use, misplacement, etc.) of my PIN, token, private keys or certificates to my supervisor, security officer, Certification Authority (CA), Registration Authority (RA), Local Registration Authority (LRA), or Trusted Agent (TA). - I will promptly inform the RA, LRA, or TA when the keys and certificates are no longer needed or required, so they can be revoked.			
Liability: I agree that I will have no claim of any nature whatsoever against the United States government, including DoD, arising from or in relation to possession, use, termination, or revocation of the certificates, the key recovery process, or any other aspect of the DoD PKI and its operation. I agree that the United States government, including DoD is not liable to me or to any third party for any injury or loss, including direct or indirect, incidental, consequential, special, or punitive damages, arising out of or relating to any certificate issued by a DoD CA.			
Governing Law: This agreement shall be governed by the laws of the United States of America.
